- 5) To customize the text with your personal information, select the sample text to be changed, and then type your information.
 - Please be sure to adhere to the existing layout, formatting and text attributes. Do not alter the font size or color of your contact information. If you are using option 1, be sure to use your Caps Lock to type your new information in uppercase to match the option 1 style.

Font – Arial, 9 point
Color – Dark Blue and Grey
 - No additions to the email signature are allowed, such as quotations or icons.
 - If you do not have a cell phone number or fax number, simply delete those options.
- 6) After you finish creating the signature, click OK.

Step 2: Insert a Custom Signature in a Message

You can set a signature to be added automatically to outgoing messages, or you can manually insert a signature when needed.

Insert a Signature Automatically

- 1) In a new message, on the Message tab, in the Include group, click the Signature button, and select Signatures.
- 2) Under Choose default signature, in the E-mail account list, click an e-mail account with which you want to associate the signature.
- 3) In the New messages list, select the signature that you want.
- 4) If you want a signature to be included in message replies and in forwarded messages, in the Replies/forwards list, select the signature. If not, select none.
- 5) Click OK.

Insert a Signature Manually

- 1) In a new message, on the Message tab, in the Include group, click Signature, and then select the signature that you want.
